

MIDTERM EXAM

MATH 250
October 20, 2023

Name: _____
by writing my name I swear I am academically honest

Read all of the following information before starting the exam:

- Show all work, clearly and in order, if you want to get full credit. I may take off points if I cannot see how you arrived at your answer (even if your final answer is correct). Remember you are communicating solutions, not just answering questions. I should be able to read your work, not have to figure out what you mean.
- No book or calculator, but you can use handwritten notes *you have taken* for this test.
- Leave answers with irrational terms, e.g. $\ln 2, \pi, \sqrt{2}$ as is. It is appropriate to stop when you get to an expression you would use a calculator to evaluate. Use the class lessons as a guide on how much to evaluate. Raise your hand for questions about simplification.
- Please keep your written answers brief; be clear and to the point. You may lose points for incorrect or irrelevant statements.
- You may only write on the exam paper or scratch paper provided by the instructor. All scratch paper will be provided by the instructor and you must turn any scratch paper used with your exam. You cannot write in your notes during the exam.
- Please turn off cellphones, take out headphones and sit spread out as much as you can.
- If you have a question or need a clarification about what a problem is asking, raise your hand and the instructor will come over to see what he can clear up.
- You have 60 minutes to work on this exam.
- Good luck!

Problem (value)	Score
1 (XX points)	
2 (XX points)	
3 (XX points)	
4 (XX points)	
5 (XX points)	
Total (XXX points)
